DO THE WORK

Dear Dear State and Federal MP,

All levels of government must work together to find a solution for Stockton Beach's erosion. It is well documented that erosion is caused by the NSW Government-owned Port Infrastructure and channel deepening. The erosion is exacerbated by changing weather patterns. Stockton remains at the mercy of the East Coast Lows which will cause further damage, causing remediation costs to skyrocket and grow with each storm.

Please advise how you will assist in fixing Stockton Beach.

We seek your support in preserving the future of Stockton Beach for future generations of Novocastrians.

Sincerely,
Stockton Resident
